## What is the MIT GSW?

The MIT GSW is the world's premier workshop dedicated to fostering entrepreneurship, inspiring future innovators, and building entrepreneurial ecosystems globally. Each year, the workshop takes place in a different location, and we bring together over 300 entrepreneurial leaders, executives, students, next generation entrepreneurs, professors, financiers, government agents, and private supporters to build a global support network for entrepreneurship. We bridge boundaries across different sectors to stimulate discussion, generate ideas, and share best entrepreneurial practices. Since 1998, our non-profit organization has held 18 international workshops, spanning 6 continents, and has attracted participants from over 70 nations.

Startup Showcase

# MIT GSW 2016 in Hyderabad, India

Every year, via the Global Startup Workshop, we strive to demonstrate the lessons we have learned while at the same time share the culture of tireless work towards seemingly impossible goals that is fostered at MIT and has proven to be effective time and again. Once again, in March 2016 in Hyderabad, we will bring together a select group of aspiring entrepreneurs with diverse skills who possess the capability and the drive to build exceptional companies and connect them to a vibrant network of investors, mentors and role models to unleash the next generation of great entrepreneurs in India. As always, we bring together inspiring speakers, future innovators, and entrepreneurs under one roof for three exhilarating days full of opportunities to build lasting connections with a diverse entrepreneurial network.
