

## Myth and magic in Bran

### Visit of Bran Castle on the 13<sup>th</sup> of October included in the spouses program

Bran Castle lures travelers from all around the world with its obscure history related to Bram Stoker's Dracula character and Vlad the Impaler. If it is true or false, overestimated or not, it is up to you to decide during the private tour Count Vlad the Impaler will organize for you.

Situated in a valley between the peaks of Bucegi and Piatra Craiului, Bran Castle was once both a fortress and a royal residence, nowadays being best known as a museum and symbol standing for Count Dracula.

Consider it a "must see" destination, independent of your travel goal in Romania. It was also Queen Marie's (Romania's former monarch) "dearest residence", which she transformed into a comfortable summer dwelling.
