## Carillion | Laytons' dedicated team

---

You may be aware that one of the largest quoted construction and property services companies in the UK, Carillion PLC, has been placed into liquidation. This unfortunate event will cause a great deal of disruption and financial uncertainty for employees who work in the company as well as the very considerable number of businesses who work with or supply Carillion.

### **Morrisons' data leak**

#### **A lesson for employers**

**Michael Edgar  
Solicitor**

At the end of 2017, judgment was handed down in the important case of **Various Claimants v Wm Morrison Supermarket Plc (2017)**, which concerns vicarious liability resulting from criminal misuse of data by an employee. The trial was only concerned with whether or not Morrisons was liable; damages will be assessed at a separate hearing. In this article we look at the facts of the

case and what lessons can be learnt from the judgment.

This case is timely given the upcoming enforcement date of the European General Data Protection Regulation (“GDPR”), under which the frequency of employee group actions is expected to increase.
