

Master Class
Investment Arbitration
19-22 September, 2016
(Brussels)

We are happy to invite you to take part in the Master class on Investment Arbitration law. This course is open for everyone who is interested in investment arbitration law.

The law on foreign investment protection is one of the fastest developing and intellectually challenging branches of international law with high practical relevance. The number of investment disputes before international arbitral tribunals has increased significantly over the last decades and reflects the notable preferences of the international business community for resolving international investment disputes.

In the course of the seminar, the speakers will examine the fundamental notions relevant to investment arbitration and critically review a number of major cases. This seminar is especially relevant to government officials, diplomats, private investors and executives who are involved in investment decision-making processes.

AIA gives a chance to improve your knowledge in Investment arbitration law. This course is also a great opportunity to network with professionals who share the same interests as you, being the

other participants or the lecturers.

The event takes place in Brussels, from the 19th until the 22st of September.
